Ashton Transfer Station unveiled

The Executive Mayor of Langeberg Municipality, Ald. Henry Jansen, recently unveiled the R10.8 million Ashton Transfer Station. The station is situated next to the Ashton Traffic Department. From left: Cllr. Niklaas Beginsel, Ald. Jansen and Cllr. Bulelani Nteta.

The Executive Mayor of Langeberg Municipality, Ald. Henry Jansen, officially unveiled the brand new transfer station in Ashton earlier this month.

Glenn Slingers, Manager: Solid Waste Management at Langeberg Municipality, said the transfer station will serve as a processing site for the temporary disposal of waste from Bonnievale, Ashton and Montagu. Local refuse disposal vehicles will also dispose waste at the facility, which will then be transported by larger trucks to the regional landfill site in Worcester.

Due to the fact that the landfill site in Ashton is reaching its maximum capacity, the municipality had to make a decision regarding the way forward.

A thorough investigation was conducted and the municipality realised that there were two options: one was to develop a new landfill site in Bonnievale and the other was to transport waste to the regional landfill site near Worcester. The municipality then decided that the regional landfill site was the preferred alternative.

Langeberg Municipality's 2nd Generation Integrated Waste Management Plan (IWMP) was subsequently modified as well, which led to the construction of this facility. One of the important reasons was to ensure that waste is still managed efficiently.

"A new landfill will not be built in the Langeberg area as it is more cost effective to make use of the regional site. Breede Valley and Witzenberg municipalities will also be making use of the regional site to dispose of waste".

The functions at the transfer station include:

- The collection and overload of solid waste materials
- The separation of recyclable material from the waste stream
- It will also serve as a delivery point for recyclable materials where cardboard, paper, plastic and glass can be delivered by the public.

Cost of the project:

- The project was made possible with the support and funding of MIG and CRR and the total cost of this facility was R10, 887,803.15 million
- 26 Temporary employment opportunities were created during the project

- R 2,057,306.99 million was spent on local labour and businesses (service providers).

Operational hours are as follows:

The transfer station will be open on weekdays from 08h30 to 16h30 as well as Saturdays and certain public holidays from 08h00 to 13h00.

Other on-going recycling projects which form part of Langeberg Municipality's Waste Management System include the composting plant in Robertson and the recycling plant in Ashton. These projects will play an important role in transporting waste to the regional landfill site.

"We would like to thank all the role players and individuals involved in the various government departments for their help and support," said Slingers.

After all the formalities were concluded, Jansen then proceeded to cut the red ribbon and declared the station officially opened.

Slingers concluded that "without everyone's co-operation, this project would not have been so successful. I hope we can work even better in the years to come."

Ashton Oorlaaistase amptelik onthul

Die Uitvoerende Burgemeester van Langeberg Munisipaliteit, Ald. Henry Jansen, het die splinternuwe oorlaaistase in Ashton vroeër hierdie maand amptelik onthul.

Glenn Slingers, Bestuurder: Vaste-afvalbestuur by Langeberg Munisipaliteit, sê die oorlaaistase sal dien as 'n verwerkingsterrein vir die tydelike verwydering van afval uit Bonnievale, Ashton en Montagu. Plaaslike vullisverwyderingsvoertuie sal ook afval by die fasiliteit aflaai, wat dan weer met groter vragmotors na die streek se stortingsterrein in Worcester vervoer sal word.

Vanweë die feit dat die stortingsterrein in Ashton sy maksimum kapasiteit bereik, moes die munisipaliteit 'n besluit neem oor die pad vorentoe.

'n Deeglike ondersoek was gedoen en die munisipaliteit het besef dat daar twee opsies was: een was om 'n nuwe stortingsterrein in Bonnievale te ontwikkel en die ander was om die afval na die streek se stortingsterrein naby Worcester te vervoer. Die munisipaliteit het toe besluit dat die streek se stortingsterrein die voorkeur alternatief was.

Langeberg Munisipaliteit se 2'de Generasie Geïntegreerde Afvalbestuursplan (GABP) was ook aangepas, wat tot die bou van die fasiliteit gelei het. Een van die belangrikste redes was om te verseker dat die afval steeds doeltreffend bestuur word.

"'n Nuwe stortingsterrein sal nie in die Langeberg area gebou word nie, aangesien dit meer koste-effektief is om van die streeksterrein gebruik te maak. Breedevallei en Witzenberg munisipaliteite sal ook van die streeksterrein gebruik maak om van afval ontslae te raak."

Die funksies van die oorlaaistase sluit in:

- Die versameling en oorlaai van vasteafvalmateriaal
- Die skeiding van herwinbare materiaal vanaf die hoofstroom
- Dit sal ook dien as 'n afleweringpunt vir herwinbare materiaal waar karton, papier, plastiek en glas deur die publiek afgelewer kan word.

Koste van die projek:

- Die projek was moontlik gemaak deur die ondersteuning en befondsing van Munisipale Infrastruktuur Toekening (MIG) en CRR en die totale koste van die fasiliteit was R10,887,803.15 miljoen

- 26 Tydelike werksgeleenthede was deur die projek geskep
- R 2,057,306.99 miljoen was op plaaslike arbeid en besighede (diensverskaffers) gespandeer.

Operasionele ure is soos volg:

Die oorlaaistase sal oop wees op weekdae vanaf 08h00 tot 16h30 sowel as Saterdag en sekere publieke vakansiedae vanaf 08h00 tot 13h00.

Ander deurlopende herwinningsprojekte wat deel van Langeberg Munisipaliteit se Afvalbestuurstelsel vorm, sluit in die komposaanleg in Robertson en die herwinningsaanleg in Ashton. Hierdie projekte sal 'n belangrike rol speel in die vervoer van afval na die streeksterrein.

"Ons wil graag al die rolspelers en individue betrokke in die onderskeie regeringsdepartemente bedank vir hulle hulp en ondersteuning," het Slingers gesê.

Nadat al die formaliteite afgehandel was, het Jansen voortgegaan en die rooi lint geknip om die oorlaaistase oop te verklaar. Slingers het afgesluit dat "sonder almal se samewerking, sou hierdie projek nie so suksesvol wees nie. Ek hoop ons kan selfs beter werk in die komende jare."

Sivulwengokusemthethweni isikhululo sokushiya inkunkuma sase-Ashton

USodolophu weSigqeba kaMasipala waseLangeberg, u-Ald. Henry Jansen, uvule ngokusemthethweni isikhululo esitsha kraca Sokushiya Inkunkuma e-Ashton ekuqaleni kwenyanga.

UGlenn Slingers, uMlawuli: woLawulo lweNkunkuma kuMasipala waseLangeberg uthe lendawo yokushiya inkunkuma izakusebenza njengendawo yethutyana yokuhlanga-hlangisa inkunkuma elahliweyo yaseBonnievale, yase-Ashton naseMontagu. Iinqwelo zezindawo zokuthutha inkunkuma nazo ziza kuyoyilahla kulendawo inkunkuma, izakuthi kamva ithuthwe ngeetraki ezinkulu iyokulahlwa kwindawoyokulahlwa inkunkuma yenkqila eseWorcester.

Ngenxa yokuba indawo yokulahlwa inkunkuma yase-Ashton ifikelela kumthamo ophezu wokugcwalala, umasipala uyewafuneka enze isigqibo sokuba kuza kuthiwani ukuya phambili.

Kwaye kwenziwa uphando olunzulu waze umasipala waphawula ukuba zimbini izinto ezinokwenziwa: eyokuqala kukuba kwakhiwe indawo yokulahlwa inkunkuma eBonnievale; eyesibini yaba kukuba ithuthwe lenkunkuma iyokulahlwa kwindawo yeNkqila yokulahlwa inkunkuma

ekufutshane naseWorcester. Umasipala waye wagqiba kwelokuba indawo yenkqila ekulahlwa kuyo inkunkuma lelona cebo likhethekileyo.

Isingcwangciso Sesibini Esinxibeleleneyo sokuLawulo Inkunkuma kuMasipala waseLangeberg ngokunjalo saye salungiswisa, ntoleyo ethe yakhokhelela ekwakhiweni kwale ndawo. Esinye sesona zizathu sibaluleke kakhulu ibikukuqinisekisa ukuba inkunkuma ilawulwa ngendlela eyiyo.

"Akuzukwakhiwa ndawo intsha yokulahlwa inkunkuma kummandla waseLangeberg njengokuba kusonga imali ukusebenzisa indawo yenkqila. Oomasipala baseBreede Valley naseWitzenberg nabo baza kusebenzisa lendawo yenkqila uyokulahlwa neyabo iinkunkuma".

Imisebenzi yesisikhululo sokushiya inkunkuma:

- Ukuqokelelwa kunye noyokothulwa kwezinto eziyinkunkuma.
- Ukohlulwa-hlulwa kwezinto ezinokuhlaziywa ngokutsha kwezo ziyinkunkuma.
- Kwakhona izakusebenza njengendawo ekusiwa kuyo izinto ezinokuhlaziywa ngokutsha apho amakhadibhodi, amaphepha, iiplastiki, iiglaszi zingasiwa khona luluntu.

Iindleko zaleprojeki:

- Le projeki yenzeke ngenxa yenkxaso kunye nemali yesibonelelo

Ashton Transfer Station

esuka kwi-MIG kunye ne-CRR yaze iindleko zizonke zalendawo zabiza ama-R10, 887, 803.15 ezigidi.

- Ngama-26 amathuba emisebenzi yethutyana athe adalwa ngexesha laleprojeki.
- Izigidi enzingama- R 2,057,306.99 zichithwe ekuqesheni abasebenzi basekuhlaleni kwathengwa nezinto zokwakha koosomashishini basekuhlaleni.

Iiyure zokusebenza zezi zilandelayo:

Isikhululo sokushiya inkunkuma siza kuvulwa ngeentsuku zeveki ukusuka ngo-08h30 ukuya ku-16h30 sivulwe kwananjalo ngeMigqibelo nangezinye iintsuku zeholide zoluntu ukusuka ngo-08h00 ukuya ku-13h00. Ezinye iiprojekti eziqhubekayo zokuhlaziywa ngokutsha kwenkunkuma neziyinxenye yeNkqubo yokuLawulwa kweNkunkuma kuMasipala waseLangeberg ziquka indawo yokwenza umgquba

eRobertson kunye neyokuHlaziya ngokutsha Inkunkuma e-Ashton. Eziprojekti zizakudlala indima ebaluleke kakhulu ekuthuthweni kwenkunkuma esiwa kwindawo yokulahlwa inkunkuma yenkqila.

"Singathanda ukubulela bonke ababenendima abayidlalileyo kwanabo bantu abathe bazibandakanya bakumasebe ohlukeneyo karhulumente ngoncedo kwanenkxaso yabo," utshilo uSlingers.

Emva kokuba kugqitywe ukwenziwa zonke izinto ngokusesikweni, uJansen uye wayokusika irhibhoni ebomvu waze wavakalisa ukuvulwa kwesikhululo ngokusemthethweni.

USlingers wavalelisa esithi "ngaphandle kobambiswano lomntu wonkele projekti ngeyingakhange ibe yimpumelelo. Ndiyathemba ukuba sakusebenzisana ngakumbi kwiminyaka ezayo".

LANGEBERG'S 2017-2018 BUDGET AT A GLANCE

Langeberg Municipality's 2017-2018 budget which amounts to R753 417 014, was approved on the 23rd May (2017) at a council meeting in Robertson.

The approved budget is comprised of the following:

- Capital budget of R 76 008 244 and an
- Operating budget of R677 408 770.

Primary operating budget revenue- and expenditure categories reflect the following year-on-year budget value increases (estimated 2017-2018 vs. adjusted 2016-2017 budget):

Tariff Increases

In order for Langeberg Municipality to

operate financially sustainable over the medium to long term, tariff increases cannot be limited to the CPI projections published by STASSA and NT as the current reality are that expenditure relating to the operation of trading and non-trading services are rising above CPI targets.

- The increase in tariffs for residential and business properties will be 7.7% and 8% respectively
- The increase of water tariffs will be 8% on average and according to the Inclining Block Tariffs of the study that was done in 2014-2015
- The increase of sanitation tariffs will be 8.5%
- The tariff increase for refuse removal will be 12%
- The increase of electricity tariffs will be 1.88%.

The Langeberg Municipality amended the tariffs for water, electricity, sewerage, refuse removal, sundry items and property rates per Council Resolution A 3433. The amended tariffs will be applied as from 1 July 2017.

The projected increase results from a combination of factors such as (relatively low) generic growth to core tariff-based services, operational efficiencies and revenue-related policies aimed at optimising and sustaining all revenue sources.

Expenditure category increases:

- Salaries and wages (including increments and social contributions): 7.80%
- Other expenses including repairs and maintenance: 15.80%

- Capital costs: 34.26%
- Bulk purchases: 3.49%.

The following property rates will be levied from 1 July 2017:

- Businesses, industrial and government: 0,0081 cent/Rand
- "Bona Fide" farmers: 0,0011 cent/Rand
- Residential properties: 0,0056 cent/Rand
- Public benefit organizations: 0,0011 cent/Rand

Full details of the council resolution, rebates on property rates and particulars of the determined tariffs are available for inspection on the municipal website (www.langeberg.gov.za) and at all public libraries and municipal offices in the municipal area.

Langeberg 2017-2018 Begroting in kort

Langeberg Munisipaliteit se begroting vir 2017-2018 ten bedrae van R753 417 014, was op 23 Mei (2017) by 'n raadsvergadering op Robertson goedgekeur.

Die goedgekeurde begroting bestaan uit die volgende:

- Kapitale begroting van R76 008 244
- Bedryfsbegroting van R677 408 770.

Primêre bedryfsbegrotingsinkomste- en uitgawe-kategorieë weerspieël die volgende jaarlikse begroting waardeverhogings (beraamde 2017-2018 teen aangepaste 2016-2017 begroting):

Tariefverhogings

Ten einde te verseker dat Langeberg Munisipaliteit finansieel volhoubaar oor die medium- tot langtermyn funksioneer, kan tariefverhogings nie beperk word tot die VPI-projeksies wat deur STASSA en NT gepubliseer word nie, aangesien die huidige realiteit is dat uitgawes wat verband hou met die bedryf van handels- en nie-handelsdienste, bo VPI teikens styg.

- Die verhoging in tariewe op residensiële en besigheidseiendomme sal onderskeidelik 7,7% en 8% wees
- Die verhoging op watertariewe sal gemiddeld 8% wees en volgens die Opwaartse Bloktariewe van die studie wat in 2014-2015 gedoen is
- Die verhoging op sanitasietariewe sal 8,5% wees
- Die tariefverhoging op vullisverwydering sal 12% wees

- Die verhoging op elektrisiteitstariewe sal 1,88% wees.

Die Langeberg Munisipaliteit het die tariewe vir water, elektrisiteit, riool, vullisverwydering, diverse items en eiendomsbelasting per Raadsresolusie A 3433 gewysig. Die gewysigde tariewe sal vanaf 1 Julie 2017 toegepas word.

Die geprojekteerde verhoging is die gevolg van 'n kombinasie van faktore soos (relatief lae) generiese groei na kerntariefgebaseerde dienste, bedryfsdoeltreffendheid en inkomsteverwante beleide wat daarop gemik is om alle inkomstebronne te optimaliseer en te onderhou.

Uitgawe kategorie-verhogings:

- Salarisse en lone (insluitend inkremente en maatskaplike bydraes): 7.80%

- Ander uitgawes insluitend herstelwerk en instandhouding: 15.80%
- Kapitaalkoste: 34.26%
- Groot aankope: 3.49%.

Die volgende eiendomsbelasting sal gehef word vanaf 1 Julie 2017:

- Besighede, nywerhede en regering: 0.0081 sent/Rand
- "Bona fide" boere: 0.0011 sent/Rand
- Residensiële eiendomme: 0.0056 sent/Rand
- Openbare begunstigde organisasies: 0.0011 sent/Rand

Volledige besonderhede van die raadsbesluit, kortingsopeiendomsbelasting en besonderhede van die vasgestelde tariewe is beskikbaar op die munisipale webwerf (www.langeberg.gov.za) en by alle openbare biblioteke en munisipale kantore in die munisipale gebied.

ELECTRICITY AND WATER BLOCK TARIFFS

South Africa's retail electricity and water tariffs have rapidly been rising over the past few years.

In an attempt to mitigate the impacts of such increases on the electricity and water accounts of poor households, Inclining Block Tariffs (IBTs) have been implemented in the Langeberg Municipality.

Block tariffs work as a stepped pricing mechanism applied to residential electricity and water consumers.

Charges per unit of electricity or water consumed, increase as the level of consumption increases. This means that people who use less electricity and water, pay lower rates. The primary objective of this tariff structure is to make electricity and water affordable to the poor and to promote energy and water saving.

Electricity block tariffs

Since July 2011, IBTs divide the electricity

price into several steps or blocks. The first block of electricity (50 kWh) is at the lowest price.

As the customer purchases more electricity during the month, the electricity bought will eventually fall in block two, which is a bit more expensive. This process repeats automatically as the customer purchases further electricity to move into another block tariff. At the end of the month, the history is reset and the customer will again start the next month from block 1.

The process to move from the one block to the next is automatic and depends only on the amount of electricity acquired by the customer. The movement to the next block is not at all affected by whether the purchases are spread over many transactions, or if all the electricity is part of one transaction.

If you are using prepaid electricity, it is important that you only buy enough

electricity for one month. Buying electricity in bulk will mean you end up paying more for electricity. So only buy the amount of electricity you need for the month. Then wait until the next month and start to buy again at the low price.

Who will receive Incline Block Tariff electricity?

The Incline Block Tariffs have been implemented for all single phase connection electricity (60AMP).

This includes households and it means prepayment and conventional customers will have the same block tariffs and pay the same price for electricity.

Water Block Tariffs

Water Incline Block Tariffs have been implemented in the Langeberg Municipality since July 2013.

The block tariff divides the water price into several steps or blocks. The first block of

water consumption (6 kl) is at the lowest price. As the customer uses more water during the month, the cost of water will eventually fall into the second block which is a bit more expensive.

This process repeats automatically as the customer uses further water to move into another block tariff. At the end of the month, the history is reset and the customer will again start the next month from block 1.

The prescribed charges for water supplied to a customer through a water meter, shall include a volumetric water tariff charged per kilolitre of the measured volume of water supplied to consumer.

NOTE: Inclining block tariffs are applicable to all residential tariffs and not dependent on the size of the water connection. Only property used exclusively for residential property qualifies for residential tariffs.

Elektrisiteit en waterbloktariewe

Suid-Afrika se kleinhandel elektrisiteits- en watertariewe het die afgelope paar jaar vinnig gestyg.

In 'n poging om die impak van sulke verhogings op die elektrisiteits- en waterrekening van minder goeie huishoudings te versag, is Opwaartse Bloktariewe (OBT's) in die Langeberg Munisipaliteit geïmplementeer.

Bloktariewe werk as 'n opwaartse prys meganisme, toegepas op residensiële elektrisiteit- en waterverbruikers.

Koste per elektrisiteitseenheid of waterverbruik neem toe namate die verbruikersvlak toeneem. Dit beteken dat mense wat minder elektrisiteit en water gebruik, laer tariewe betaal. Die primêre doel van hierdie tariefstruktuur is om elektrisiteit en water bekostigbaar te maak aan armes en om energie en waterbesparing te bevorder.

Elektrisiteit Bloktariewe

Sedert Julie 2011 verdeel OBT's die elektrisiteitsprys in verskeie stappe of blokke. Die eerste blok elektrisiteit (50 kWh) is teen die laagste prys.

Soos die kliënt meer elektrisiteit gedurende die maand koop, sal die gekoopte elektrisiteit uiteindelik in blok 2 val, wat 'n bietjie duurder is. Hierdie proses herhaal outomaties soos die kliënt verdere elektrisiteit aankoop om in 'n ander bloktarief te beweeg.

Aan die einde van die maand word die geskiedenis herstel en die kliënt sal weer die volgende maand vanaf blok 1 begin.

Die proses om van die een blok na die volgende te beweeg is outomaties en hang slegs af van die hoeveelheid elektrisiteit wat deur die kliënt verkry is. Die beweging na die volgende blok word glad nie beïnvloed deur die aantal transaksies en of al die elektrisiteit deel van een transaksie is nie.

As jy voorafbetalde elektrisiteit gebruik, is dit belangrik dat jy net genoeg elektrisiteit vir een maand koop. Die aankoop van elektrisiteit in grootmaat beteken dat jy uiteindelik meer betaal vir elektrisiteit. Koop dus slegs die hoeveelheid elektrisiteit wat jy nodig het vir die maand. Wag dan tot die volgende maand en begin weer teen die laer prys koop.

Wie sal Opwaartse Elektrisiteits-bloktarief ontvang?

Die Opwaartse Bloktariewe is geïmplementeer vir alle enkelfase elektrisiteitsaansluiting (60AMP).

Dit sluit huishoudings in en beteken vooruitbetaling en konvensionele kliënte sal dieselfde bloktariewe hê en dieselfde prys vir elektrisiteit betaal.

Waterbloktariewe

Opwaartse Waterbloktariewe word sedert Julie 2013 in die Langeberg Munisipaliteit geïmplementeer. Die bloktarief verdeel die

waterprys in verskeie stappe of blokke.

Die eerste blok waterverbruik (6 kl) is teen die laagste prys. Soos die kliënt meer water gebruik gedurende die maand, sal die koste van water uiteindelik in die tweede blok val, wat 'n bietjie duurder is. Hierdie proses herhaal outomaties soos die kliënt verdere water gebruik om in 'n ander bloktarief te beweeg.

Aan die einde van die maand word die geskiedenis herstel en die kliënt sal weer die volgende maand vanaf blok 1 begin.

Die voorgeskrewe koste vir water wat aan 'n kliënt deur 'n watermeter verskaf word, sal 'n volumetriese watertarief insluit wat per kiloliter van die gemete volume water van verbruikers verhaal word.

LET OP: Opwaartse Bloktariewe is van toepassing op alle residensiële tariewe en nie van toepassing op die grootte van die wateraansluiting nie. Slegs eiendom wat eksklusief as residensiële eiendom gebruik word, kwalifiseer vir residensiële tariewe.

Iintlawulo Zamanqwanqwa Amanzi

Iintlawulo zamanzi ezinyuka ngokwamanqwanqwa sele zisetyenziswa nguMasipala waseLangeberg ukususela ngoJulayi 2013.

Ezintlawulo zalamanqwanqwa ziwahlula-hlula amaxabiso amanzi ngokwamanyathelo okanye amanqwanqwa aliqela. Inqwanqwa lokuqala lamanzi asetyenzisiweyo (angange-6kl) likwixabiso eliphantsi. Ekusiyi umthengi wamanzi

esebenzisa amanzi amaninzi ngenyanga, nexabiso lamanzi ligqibela lingena kwinqwanqwa lesibini nelithe xhaxha kakhulu ngexabiso. Lenkqubo iyaziphinda-phinda ngokunokwayo ekusiyi umthengi ebhekela phambili ekusebenziseni amanzi lishenxe liyokungena kwelinye inqwanqwa lentlawulo.

Ekupheleni kwenyanga, lembali iyatshintsha iqale ngokutsha aphinde kwakhona umthengi aqale ekuqaleni kwinyanga elandelayo kwinqwanqwa loku-1.

Iindleko zamanzi ezimiseliweyo ngamanzi athe wabonelelwa ngawo umthengi nezithathwe kwibhokisi yemitha yamanzi kufuneka ziquke ukufundwa kwentlawulo yamanzi ngekhilolitha nganye ayisebenzisileyo nezingumlinganiselo wesixa samanzi abonelelwe ngaso umthengi.

Simple guide to getting your **Learner's and Driver's Licence**

All South African drivers are required to have a driving licence. However, before being able to have this type of licence, one has to first successfully obtain a learners licence.

Once an applicant gets a learners licence, it is only valid for 2 years. During this period, it is crucial that one applies for a driving licence and successfully completes the test. Failure to do so could possibly lead to the applicant having to go through the entire process again.

A driving licence expires five years from the date on which it was issued. The expiry date appears on the card. Application for the new card must be made on or before the expiry date.

A driver's license is quite often a requirement when applying for most jobs. It is encouraged that scholars make it a priority to obtain their license as soon as they turn 18.

When you apply to write the learner's licence test:

- Application must be made in person
- Bring along your official SA Identity Document and proof of address
- Have two identical ID-sized black and white or colour photographs (40mm x 30mm)

- R68 for application
- Complete the blue application form for learners licence (LL1 form)
- Do eye test
- Pay at cashier
- Date will be given to write the test
- R33 for issue on day of passing the test.

Code 1 - Motor cycle must be 16 years or older

Code 2 - Light motor vehicle must be 17 years or older

Code 3 - Heavy motor vehicle must be 18 years or older

When a date for your learner's licence test has been given to you, this appointment may only be deferred to a later date, with proof of why you cannot attend, e.g. if you are sick (provide a medical certificate), attending a funeral (provide a death certificate) or writing exams (provide a timetable) before your appointment date. Keep in mind that for the cancellation of an appointment you will forfeit your money.

When you apply for a Driving Licence:

- Application must be made in person
- Ensure that you have a valid learner's licence in respect of the class of vehicle concerned
- Bring your ID and have proof of

address, any account in your name not older than 3 month

- Bring a valid learner's licence to make your appointment
- Make sure you have two identical black and white or colour photographs measuring 40mm length x 30mm width.
- The photo must depict the head and shoulders without headgear subject to religion
- Complete the green application for driving licence (DL1 form), provided at the traffic department
- Do an eye test at the driving licence testing centre on the day you make your appointment or produce a valid eye test certificate from a registered optician (only valid for 2 months)
- Bring the required fee
- Once your application is complete, a date will be set for your driving test.

The driving test uses the K53 practical driving test for motor vehicle drivers, to measure your proficiency in the following:

- Know and understand the road traffic signs
- Have a sound knowledge of the rules of the road and the controls of a motor vehicle
- Are capable of handling/coping with traffic problems in a practical

driving situation, driving the type of vehicle specified on the application

- Study materials are available at libraries or can be bought at various shops to help you prepare for your driving test. Many people hire a driving instructor
- Once you have passed the driving test, you will be issued with a temporary driving licence. As soon as your card driving licence is ready for collection, you will be notified in the post. When you collect the licence, you need to produce your ID. Licences that are not collected within 120 days are destroyed.

If an applicant is unable to collect the licence card in person the person who receive the card on behalf of the applicant shall produce:

- His/her ID and certified copy thereof
- A certified copy of the driver's ID, and
- An affidavit made by the applicant stating the reason why he/she cannot collect the card in person and the name and ID number of the person who will receive the card on his/her behalf.
