Part 1

1. Objective

In developing and adopting this rates policy, the council has sought to give effect to the sentiments expressed in the preamble of the Property Rates Act, namely that:

- the Constitution enjoins local government to be developmental in nature, in addressing the service delivery priorities of our country and promoting the economic and financial viability of our municipalities;
- there is a need to provide local government with access to a sufficient and buoyant source of revenue necessary to fulfil its developmental responsibilities;
- revenues derived from property rates represent a critical source of income for municipalities to achieve their constitutional objectives, especially in areas neglected in the past because of racially discriminatory legislation and practices; and
- it is essential that municipalities exercise their power to impose rates within a statutory framework which enhances certainty, uniformity and simplicity across the nation, and which takes account of historical imbalances and the burden of rates on the poor.

In applying its rates policy, the council shall adhere to all the requirements of the Property Rates Act no. 6 of 2004 including any regulations promulgated in terms of that Act.

2. Definitions

In this policy, unless inconsistent with the context,

“Agricultural property” means property that is used primarily for agricultural purposes but, without derogating from section 9 of the Act, excludes any portion thereof that is used commercially for the hospitality of guests, and excludes the use of the property for the purpose of eco-tourism or for the trading in or hunting of game.

“public service infrastructure” means the following:

- (a) National, provincial or other public roads on which goods, services or labour move across a municipal boundary;

Railway or infrastructure used for the provision of water, lights, power, sewerage or similar services of ports, or navigational aids comprising lighthouses, radio navigational aids, buoys, beacons or any other device or system used to assist the safe and efficient navigation of vessels.

“rates” means a municipal rate on property envisaged in section 229(1)(a) of the Constitution;

“ratio” in relation to section 19 of the Act, means the relationship between the cent amount in the Rand applicable to residential properties and different categories of non-residential properties: Provided that the two relevant cent amounts in the Rand are inclusive of any relief measures that amount to rebates of a general application to all properties within a property category.

“the act” means the act on Local Government: Municipal Property Rates Act, Act No 6 of 2004;

“the Council” means the municipal Council of the Langeberg Municipality and has all other words the meaning assigned thereto by the Act

Part 2

Imposition of Rates

1. Rates

The Council shall in terms of the Act and this policy impose a rate in the rand on all rateable property within its area of jurisdiction for each financial year as recorded in the municipality's valuation roll and any supplementary valuation roll.

Rateable property shall include any rights registered against such property with the exception of a mortgage bond.

The council pledges itself to limit each annual increase as far as practicable to the increase in the consumer price index over a period preceding the financial year to which the increase relates, except when the approved integrated development plan of the municipality provides for a greater increase.

The council shall, in imposing the rate for each financial year, take proper cognisance of the aggregate burden of rates and services charges on representative property owners, in the various categories of property ownership, and to the extent to which this burden is or remains competitive with the comparable burden in other municipalities within the local economic region.

The council shall further, in imposing the rate for each financial year, strive to ensure that the aggregate budgeted revenues from property rates, less revenues forgone and less any contributions to the provision for bad debts, equal at least 25% of the municipality's aggregate budgeted net revenues for the financial year concerned. By doing so, the municipality will ensure that its revenue base and the collectability of its revenues remain sound.

Liability for the payment of Rates

- (1) The registered owner of a property is liable for the payment of rates levied in terms of section 24 of the Act on that property.
- (2) Rates may, subject to the provisions of sections 28 and 29 of the Act, be recovered from tenants, occupiers and agents of the owner.

Rates due on a supplementary Valuation Roll

In the event property been transferred to a new owner and the rates on a supplementary valuation roll becomes payable after the transfer the previous owner and the new owner will jointly and separately be held responsible for the payment for the rates.

2. Special Rating Areas

The Council may subject to the compliance with the provisions of section 22 of the Act determine an area within the municipal area as a special rating area and levy an additional rate in that area to upgrade or improve that area. The funds generated by the special rate in a special rating area shall only be utilised in that area and only for the intended upgrading or improvement of that area.

3. Ration between Rates on Residential and Non-residential Properties/Agricultural Properties

The ratio between rates on residential and non-residential property may not exceed the ratio prescribed by the Minister of Provincial and Local Government. The present ratio is 1 : 1. The ratio between rates on residential and agricultural property may not exceed the ratio as indicated in the Regulations on the Rate Ratios. The ratio is 1 : 0.25.

4. Method of assessing Rates

Rates imposed by the Council shall be assessed on the valuation of rateable property appearing on the valuation roll in operation in the municipal area on the date on which such rates become due and payable.

5. Adjustment of Rates

If rates assessed on the valuation of rateable property and such valuation is thereafter altered in terms of section 55(1) of the Act, the council shall adjust the assessment of such rates and shall refund any amount over collected and shall levy any amount under collected.

If immovable property becomes exempt from rating during a financial year, council shall make a pro-rata refund in respect of the unexpired portion of such financial year. If exempted property becomes rateable during a financial year, the council shall levy rates pro-rata in respect of the unexpired portion of such financial year.

6. Supplementary Valuation Rolls

Rates on supplementary valuation rolls shall be levied as prescribed in section 78(4) of the Act.

7. Accounts to be Furnished

The Council shall annually during July furnish each registered owner of rateable property as it appears in the valuation roll with a rates account. In respect of supplementary valuations, rates accounts will be furnished to the affected owners as from the effective date.

In the case of agricultural property that is owned by more than one owner in undivided shares, Council shall furnish any one of the owners with a rates account and hold him/her liable for payment of the rates on the property.

8. Properties used for multiple purposes

A rate levied on a property used for multiple purposes must be determined by apportioning the market value of the property to the different purposes for which the property is used and applying the rates applicable to the categories determined by the municipality for properties used for those purposes.

Part 3

3.1 Exemptions, Rebates and Reductions on Rates

In determining the annual rate, the council shall grant the following exemptions, rebates and reductions to the categories of properties and categories of owners as indicated below. Council reserves the right to reconsider the exemptions, rebates and reductions annually and adjust as necessary.

The council will take the actual use of the property into consideration before placing it in a particular category. In the case of vacant land the original land determination will be applied.

- The need to accommodate indigents and less affluent pensioners.
