From the **Mayor's Office**

"Service delivery the **top priority**"

Since taking office, the newly elected Executive Mayor of Langeberg Municipality, Ald. Henry Jansen, has been working tirelessly to oversee that key projects in the region were on schedule.

The projects that Jansen visited included the construction of the Ashbury Library in Montagu, the sod-turning event which signalled the beginning of the massive McGregor Housing Project and the handover of title deeds to beneficiaries in Zolani, to only name a few.

The Ashbury Library is nearly completed and will serve about 10 000 residents.

Since the Mayor's visit to the McGregor Housing Development site, the construction of the first houses has begun. Coupled with that good news, the road and water infrastructure has also been completed. The electricity connections will be installed soon. About 387 residents will benefit from this project. A Social Compact Committee was established (with elected beneficiaries serving on the committee) to keep all beneficiaries informed of progress made.

The first houses are expected to be completed between April and June this year. They will be handed over once the electrification process is completed.

Jansen also brought immense joy to residents from Zolani after handing over title deeds to six beneficiaries. They are now proud home owners.

The mayor is serious about delivering excellent services to all communities within Langeberg. He has committed himself to not only ensuring that basic services are delivered to the people, but to also attract investors to boost the local economy and thus creating much-needed jobs.

Brandopeliding vir McGregor Gemeenskap

'n Groep van tien brandbestryder-entoesiaste van McGregor het in Desember hulle hulp aangebied om Langeberg Munisipaliteit te help met die beheer en blus van brande.

Mnr Theo Botha en Mnr Sephus Pretorius van Breedevallei Munisipaliteit Brandweer Departement, wie ondervinding in Gemeenskap Noodreaksiespanne (CERT) het, het hierdie inwoners deur hul opleidingsinstruksies geneem. Die opleiding het op 20 Desember 2016 in McGregor plaasgevind.

Die deelnemers het ingesluit: Jeremy Nel (koördineerder), Neil Sloane, Johan Maritz, Craig Price, Leon Dorfling, Martyn Johnson, Max Menzies, Tom Brown, Hamish Shand en John Oldham.

Die mees algemene voorvalle vind plaas wanneer mense vure nie behoorlik blus nie, wanneer jongmense met vure 'speel', of wanneer inwoners ongemagtigde 'beheerde vure' maak om tuinvullis te brand. Dit word ook veroorsaak deur nalatigheid of gebrek aan konsentrasie.

Inwoners het aan die volgende oefeninge deelgeneem: Identifisering en gebruik van 'n brandkraan; blus van vuur met behulp van vuurtenk; en die blus van vuur met 'n draagbare brandblusser. Hulle het ook 'n Basiese Brandbestrydingstoets geskryf.

McGregor se vrywillige brandbestryders by die dorp se nuwe watertenk.

Na afloop van die oefening was inwoners toegerus met 'n water 'bowser' (sleepwa met 'n watertenk) om eiendom te beskerm totdat die Brandweerdiens by die toneel aanmeld.

Hierdie inisiatief was gebore na Langeberg Munisipaliteit en Kaapse Wynland Brandweerdiens albei besig was om ander brande in die streek te blus terwyl 'n brand in McGregor gewoed het. Die dorp (McGregor) het nie 'n Brandweerdiens-basis nie.

Christa Liebenberg, Direkteur: Gemeenskapsdienste by Langeberg Munisipaliteit, sê die munisipaliteit is baie dankbaar vir hierdie inisiatief van die McGregor gemeenskap.

Tot dusvêr was dit nog nie nodig om op enige voorval te reageer nie.

Community Fire Training in McGregor

A group of ten fire fighting enthusiasts from McGregor offered their assistance in December to help Langeberg Municipality's Fire Services with controlling and extinguishing fires.

These residents went through training drills with Mr Theo Botha and Mr Sephus Pretorius from Breede Valley Municipality's Fire Department. They have experience in establishing Community Emergency Response Teams (CERT). The training took place in McGregor on 20 December 2016.

The participants included: Jeremy Nel (co-ordinator), Neil Sloane, Johan Maritz, Craig Price, Leon Dorfling, Martyn Johnson, Max Menzies, Tom Brown, Hamish Shand and John Oldham.

The most common incidents occur when people don't extinguish fires properly, when youth 'play' with fire, or when unauthorised "controlled fires" by residents are made to burn garden refuse. It is also caused by negligence or a lack of concentration.

Residents participated in the following drills: Identifying and operating a fire hydrant; extinguishing a fire using the fire bowser; and extinguishing a fire using a hand held fire extinguisher. They also completed a written Basic Fire Fighting Test.

After the training session, residents were equipped with a water bowser (trailer with a water tank) to protect properties whilst waiting for the Fire Services to report to the incident.

This initiative was born after Langeberg Municipality and Cape Winelands Fire Services were both busy extinguishing other fires in the region, when a fire was raging in McGregor. The town (McGregor) does not have a Fire Services base.

Christa Liebenberg, Director: Community Services at Langeberg Municipality, said the municipality is really grateful for this initiative from the Mcgregor community.

Thus far, it was not yet necessary to react on any incident.

Langeberg Municipality welcomes new Ward Committee Members

Langeberg Municipality recently provided rigorous training for all new Ward Committee members, as it aims to create a sound engagement platform regarding service delivery issues.

The training sessions were held last month at the Chris van Zyl Hall in Bonnievale, Community Hall in Nkqubela and at the Civic Hall in Robertson.

A total of 112 newly elected members attended the training as well as nine Ward Councillors. The facilitators included Johan Coetzee, Manager: Governance Support; AB Bronn, Ward Committee Coordinator; Jongi Mfutwana, IDP Coordinator and the Community Liaison Workers.

The following topics were covered: functions of local government, fole and functions of a ward committee, municipal integrated development planning, municipal budget, service delivery and management of conflict and communication.

Rigorous training for the new ward committee members.

A Ward Committee is a platform whereby residents can have a say in local government affairs. Using this platform, residents can raise issues within their Ward and have it prioritised through structured decision-making processes. Once an issue is prioritised, the municipality will conduct plans to roll-out projects that the Council or municipality will undertake, which will positively impact the Ward.

By utilising a Ward Committee structure, it creates an exciting environment for active citizenship and greater involvement from community organisations in the matters of local government.

Residents are encouraged to make use of opportunities to get involved in municipal activities, by attending block and community meetings within their wards.

The new members will serve their respective wards until the next Local Government Elections in 2021.

Langeberg Municipality launches WorkFinder

'Calling on all unemployed residents of Langeberg to register'

New to the Langeberg Municipal website (www.langeberg.gov.za) is a free platform called WorkFinder, where all job seekers and service providers can register themselves to find work.

As we all know, the unemployment rate is increasing daily. Many Langeberg residents are sitting at home without a CV or the necessary skills to put themselves out there in the job market. It could be that they have minimum to no education, are physically restricted to go out and look for work due to a disability or have limited resources. However, there is a chance that they might just have a skill that can be of value to an employer.

This new online platform puts you out there for employers to find. It's free for everyone to register and complete a resume form. This can be done in the comfort of your home or at your nearest library. If you are not computer savvy, an official will be at your library once a week to assist you with the registration process.
To register yourself, you will need an email address. If you don't have an email address there are many platforms available to open a free email account, for example Gmail, Yahoo, and many others to choose from.

You will need to list all your skills as this will make you more employable. Whether you can paint, build, weld, cook, clean, drive a taxi or do accounting work, you should stipulate it all in order for your details to be visible by the employer when they search a specific skill. You are also given the option to attach your CV.

In order for employers to get hold of you, it is very important that you supply a relevant contact number and keep it updated in case your number changes.

The purpose of WorkFinder is to make the unemployed more accessible for employers to find. The end goal will be for you to receive a call for an interview.

Employers can be anyone from someone looking for a handyman, cleaner or painter on a contract basis, to a company looking for a skilled worker on a permanent basis.
Do not sell yourself short. If you are currently unemployed and want to work, you should focus on the skills that you have to offer an employer and use this platform to advertise yourself. If you are a service provider in the Langeberg area, you can list your service offerings. This will also make you searchable as a contractor/employer.

Langeberg Municipality will not be involved in the employment process, but purely offers the platform for employers to search for unemployed residents in the Langeberg area.

Langeberg Munisipaliteit loods 'WorkFinder'

'Beroep op alle werklose inwoners van Langeberg om te registreer'

'n Nuwe toevoeging tot die Langeberg Minisipaliteit se webtuiste (www.langeberg.gov.za) is 'n gratis platform wat as 'WorkFinder' bekend staan. Alle werksoekers en diensverskaffers kan hier registreer om werk te vind.

Soos ons almal weet is daar 'n daaglikse toename in die werkloosheidsyfer. Baie Langeberg inwoners sit by die huis sonder 'n CV of die nodige vaardighede om in die arbeidsmark te kom. Dit mag wees dat hulle minimale tot geen onderwysopvoeding het nie, of fisies beperk is om vir werk te soek vanweë 'n gestremdheid, of beperkte hulpbronne het. Daar is egter 'n kans dat hulle oor 'n vaardigheid beskik wat vir 'n werkgewer van waarde kan wees.

Hierdie nuwe aanlyn-plaform stel jou aan werkgewers bloot om jou te vind. Dit is gratis en enige persoon kan registreer en 'n CV-vorm invul. Dit kan in die gemak van jou huis of by jou naaste biblioteek gedoen word. Indien jy nie rekenaarvaardig is nie, sal daar eenkeer per week 'n beampte by die biblioteek wees om jou met die registrasie te help.

Om jouself te registreer het jy 'n epos-adres nodig. Indien jy nie 'n epos-adres het nie, is daar vele platforms beskikbaar om 'n gratis epos-rekening oop te maak, bv. Gmail, Yahoo en vele ander om van te kies. Jy sal al jou vaardighede moet lys aangesien dit jou meer geskik vir indiensneming sal maak. Indien jy kan verf, bou, sweis, kook, skoonmaak, taxi ry of rekeningkundige werk kan doen, moet jy dit alles stipuleer sodat jou gegewens sigbaar is aan werkgewers indien hulle vir 'n spesifieke vaardigheid soek. Jy word ook die opsie gegun om jou CV aan te heg.

Dit is baie belangrik om 'n relevante kontaknommer beskikbaar te stel indien werkgewers jou wil kontak. Dit moet ook opgedateer word indien jou nommer verander.

Die doel van 'WorkFinder' is om die werkloses meer toeganklik aan wekgewers te maak. Die eind-doel sal wees om vir 'n onderhoud genooi te word.

Werkgewers kan enige persoon wees wat soek vir 'n nutsman, skoonmaker, verwer op kontrakbasis, tot 'n maatskappy wat opsoek is na 'n geskoolde werker op 'n permanente basis.

Moenie jouself indoen nie. Indien jy tans werkloos is en wil werk, moet jy fokus op die vaardighede wat jy aan 'n werkgewer kan bied en hierdie platform gebruik om jouself te adverteer. Indien jy 'n diensverskaffer in die Langeberg omgewing is, kan jy jou dienste lys. Dit sal jou ook meer soekbaar as kontrakteur/werkgewer maak.

Langeberg Munisipaliteit sal nie by die indiensnemingsproses betrokke raak nie. Die munisipaliteit bied slegs die platform vir werkgewers om vir werklose inwoners van die Langeberg omgewing te soek.

Iiprojekthi zexesha elide 'ezigqityiweyo' zikaMasipala

Iiprojekthi zexesha elide zikaMasipala waseLangeberg nebeziqenqeliselwe zisuka kunyaka-mali ka2015-2016 zigqitywe ngempumelelo, kwaye zilindeleke ukuba ziwuphakamise umgangatho wokuphila kwabantu bale ngqila.

Eyona njongo bekujoliswe kuyo ibikukuphuculwa kweenkonzo ezingundonqo zikamasipala, ukuphuculwa kokuhanjiswa kweenkonzo kwano kuqinisekisa ukuba iinkonzo ezisisiseko azibekwa ngciphekweni.

UGlen Slingers, uMlawuli: weNkunkuma kuMasipala waseLangeberg, uchaze ukuba ukwakhiwa kwesikhululo senkunkuma e-Ashton nebesixabisa izigidi ezili-R 10.8, sigqitywe ngempumelelo. Injongo yesisikhululo kukulungiselela ukuqokelelwa nokuthuthwa kweenkunkuma isiwe kwindawo yokulahla inkunkuma ekwingqila. Le projekthi, neyagqitywa ekupheleni kukaAgasti, yadala amathuba emisebenzi ali-15 angengawo wesesigxina kunye nomnye wesigxina.

Ukwakhiwa kweNdawo entsha yokuShiya inkunkuma eBonnievale nexabise izigidi ezi-4.8 zeerandi nayo igqityiwe (nge18 Januwari 2017). Lendawo yenkunkuma yakhiwe kwimmandla wemizi-mveliso ngentla kwiSitalato iForest. Isikhululo sokushiya inkunkuma yindawo apho abahlali banokuya kuyo, ngexesha elikholisa bona bayokothula khona yonke nje inkunkuma. Isikhululo sokushiya inkunkuma siza kuyamkela yonke iinkunkuma eveliswa ngabahlali.

"Indawo yokushiya inkunkuma izakubonelela uluntu, amafama akwindawo zasemaphandleni kunye nabo bakufutshane ngandlela yimbi yokuba base inkunkuma yabo kunye nezinto ezinokuhlaziywa ngokutsha kwindawo yokugcina lenkunkuma ithutyana,"utshilo uSlingers.

Ukuphuculwa kwendawo eyenza uMsebenzi wokuCocwa kwaManzi Amdaka eMontagu nebixabisa izigidi ezingama-20.9 eerandi sele igqityiwe. Isizathu sokuphuculwa kwayo ibisesokukuba lendawo ikwazi ukuhluza isixa esikhulu samanzi amdaka. Indima edlalwa sesisakhiwo kulendawo yeyokuba ikwazi ukucoca lamanzi amdaka phambi kokuba ichithe ingxenye yamanye asangcolileyo kumlambo okwalapho.

Phambi kokwenziwa koluphuculo, eliziko belikwazi ukucoca isininzi esingange-1.6 semegalitha zamanzi amdaka kuphela ngosuku. Sekunjalo, lendawo ibifumana malunga ne2.2 yemegalitha zamanzi ngosuku, ntoleyo ibingalungiselelwanga yona. Ngoko ke, ngenxa yokubanganeno ngamandla omthamo wamanzi elikwazi ukuwathwala, bekufuneka ukuba liphuculwe.

Amaziko Oluntu

Ukwakhiwa kwethala-leencwadi e-Ashbury eMontagu nelixabisa izigidi ezingange-6.1 zeerandi seliphantse ukugqitywa. Le projekthi, nezakunceda malunga ne-10 000 yabahlali, kungoku nje i-90.52% yayo igqityiwe. Eli thala-leencwadi lakhiwe kudibano lwendlela

Indawo Entsha yokuShiya Inkunkuma eBonnievale.

i-Eike neWilge. Eli thala-leencwadi lizakufakelwa ezi zinto zilandelayo: iiKhompyutha eziza kuqhagamshelwa kwi-Intanethi, Imatshini yokwenza iikopi, Iincwadi zeeNtsomi nezamabali Enyaniso ezingeelwimi ezintathu, iiMagazini kunye namaphepha, iiCD kunye neeDVD, Iinkqubo zokufundiswa kwabantwana, Uqeqesho ngeKhompyutha, Izinto Zokufunda, Ukuncediswa kwiiprojekthi zesikolo. Eyona nto emphambili ekujoliswe kuyo kukujongana nomceli-mngeni wokufunda nokubhala kule ngqila.

Iinjineli Zombane

Iiprojekthi zokufakelwa kombane oxabisa izigidi ezi- 1.07 zeerandii zizakwenziwa kuwo wonke lommandla. Ukutshintshwa nokulungiswa kweZibane Zezitalato nokuza kuxabisa ama-R215 000 kwaneentambo zombane ezizakudla malunga nesigidi esi-1.3 seerandi nako kuzakwenziwa.

Ucoceko

Kuthengwe imigqomo yenkunkuma enamavili ngemali engange-R500 000. Zonke izindlu (kuzo zontlanu iidolophu) ekugqibeleni zizakuwufamana umgqomo wenkunkuma onamavili ngokuya isiya ibakhona imali. Isixa-mali esinganga-R110 000 sele sisetyenziselwe ukubeka imigqomo emikhulu kawonke-wonke kuwo wonke lommandla. Eliphulo lenzelwe ukuba kukhuthazwe isenzo sokungangcolisi – kwano kubonelela ngeendawo eziliqela nekulapho inokulahlwa khona inkunkuma.

Munisipaliteit se voltooide kapitaalprojekte

Langeberg Munisipaliteit se kapitaalprojekte wat oorgerol het van die 2015-2016 finansiële jaar, was suksesvol voltooi en word verwag om die lewenstandaarde binne die streek te verhoog.

The hooffokus is die opgradering van ou infrastruktuur, verbetering van dienslewering, en versekering dat basiese dienste nie verlaag nie.

Glen Slingers, Bestuurder: Soliede Afval by Langeberg Munisipaliteit, noem dat die konstruksie van 'n splinternuwe aflaaistasie in Ashton, ter waarde van R10.8 miljoen, suksesvol voltooi is. Die doel van hierdie stasie is om die versameling en vervoer van vaste afval by die plaaslike afvalhoop te fasiliteer. Hierdie projek, wat einde Augustus voltooi is, het 15 tydelike en een permanente werksgeleentheid geskep.

Die konstruksie van die nuwe aflaaistasie in Bonnievale, ter waarde van R4.8 miljoen, was op 18 Januarie 2017 voltooi. Hierdie fasiliteit is gebaseer in die industriële gebied aan die bokant van Foreststraat.

'n Aflaaistasie is 'n fasiliteit waar inwoners gerieflik hulle algemene afval kan aflaai. 'n Oorlaaistasie sal die hele afvalstroom wat deur verbruikers gegenereer word, aanvaar.

"Die aflaaistasie sal die publiek en boere in die landelike en nabygeleë omgewing die opsie bied om hulle soliede afval en herwinbare produkte na hierdie terrein te bring vir tydelike storing," sê Slingers.

Die opgradering van die Mantagu Rioolsuiweringsaanleg ter waarde van R20.9 miljoen is voltooi. Die rede vir die opgradering is om die fasiliteit instaat te stel om groot hoeveelhede rioolwater te filter. Die rol van die fasiliteit binne die gemeenskap is om rioolwater te suiwer voor die uitvloeisel terug in die ekosisteem (rivier) vrygestel word.

Voor die opgradering kon die fasiliteit slegs 'n maksimum van 1.6 Megaliters rioolwater per dag prosesseer. Die fasiliteit het egter invloeie van tot 2.2 Megaliters per dag ontvang en was nie ontwerp om hierdie volume te hanteer nie. Die opgradering was dus noodsaaklik as gevolg van die onvermoë van die fasiliteit.

Gemeenskapsfasiliteite

Die konstruksie van die Ashbury biblioteek in Montagu ter waarde van R60.1 miljoen is amper klaar. Hierdie projek, wat sowat 10 000 inwoners sal bedien, is tans 90,52% voltooi. Die biblioteek is op die hoek van Eike en Wilgelaan geleë. Die biblioteek sal toegerus word met die volgende: rekenaars met internet-konneksie; fotokopie-fasiliteite; fiksie en nie-fiksie boeke in 3 verskillende tale; tydskrifte en koerante; CD's en DVD's; opvoedkundige programme vir kinders; rekenaaropleiding; studie fasiliteite en hulp met skoolprojekte. Die sleutelfokus sal wees om die geletterdheidsuitdaging in die streek aan te spreek.

Elektriese Ingenieurswese

Elektrifiseringprojekte ter waarde van R1.07 miljoen sal ook in die hele streek geïmplementeer word. Vervanging en herstelwerk aan straatligte ter waarde van R215 000 en netwerke ter waarde van R1.3 miljoen, sal gedoen word.

Reiniging

Wielietjiedromme ter waarde van R500 000 word tans aangekoop. Alle huishoudings (in die vyf dorpe) sal uiteindelik 'n wielietjiedrom ontvang soos fondse beskikbaar gestel word. 'n Totaal van R110 000 is bestee om staalvullishouers (skips) oor die hele streek te plaas. Hierdie inisiatief is geïmplementeer om nie-rommelstrooiing te bevorder asook om voldoende plekke te voorsien waarvan vullis ontslae geraak kan word.

Municipality's 'completed' capital projects

Langeberg Municipality's capital projects that were rolled over from the 2015-2016 financial year have successfully been completed, and is expected to elevate the living standards within the region.

The main focus is on upgrading old infrastructure, improving service delivery and ensuring that basic services are not compromised.

Glen Slingers, Manager: Solid Waste at Langeberg Municipality, mentioned that the construction of a brand new transfer station in Ashton, valued at R10.8 million, has successfully been completed. The purpose of this station is to facilitate the collection and transport of solid waste to the regional landfill site. This project, which was completed end of August, created 15 temporary and one permanent job.

The construction of the new Drop-Off Facility in Bonnievale to the value of R4.8 million has been completed (18 January 2017). This facility is based in the industrial area at the top of Forest Street.

A drop-off is a facility where residents can come to, to conveniently offload general waste. A transfer station will accept the entire waste stream generated by consumers.

"The drop-off will provide the public, farmers in the rural and nearby areas the option to bring their solid waste and recyclables to this site for temporary storage," said Slingers.

Ashbury's new library almost complete.

The upgrading of the Montagu Waste Water Treatment Works amounting to R20.9 million has been completed. The reason for the upgrade is for the facility to be able to filter larger amounts of sewerage water. The role of the plant within the community is to purify sewerage water before releasing the effluent back into the eco-system (river).

Before the upgrade, the facility could only process a maximum of 1.6 megaliters of (sewerage) water per day. However, the plant was receiving inflows of up to 2.2 megaliters per day, which it wasn't designed to handle. Therefore, due to the incapacity of the facility, the upgrade is essential.

Community Facilities

The construction of the Ashbury library in Montagu amounting to R6.1 million is almost finished. This project, which will service around 10 000 residents, is currently 90.52% complete. The library is situated on the corner of Eike and Wilge Avenues. The library will be equipped with the following: Computers with internet connectivity; Photocopy Facilities; Fiction and non-fictional books in 3 different languages; Magazines and newspapers; CD's and DVD's; Educational programs for children; Computer Training; Study Facilities; Help with school projects. The key focus will be to address the literacy challenge in the region.

Electrical Engineering

Electrification projects to the value of R1. 07 million will also be implemented across the region. Replacement and repairs to Street Lights to the value of R215 000 and Networks amounting to R1.3 million, will be done.

Cleansing

Wheelie Bins are being purchased to the tune of R500 000. All households (in the five towns) will eventually receive a wheelie bin as funds become available. A total of R110 000 has been spent to place skips across the region. This initiative is being implemented to promote non-littering behaviour- as well as to provide adequate places to dispose of litter.
